Subject: RE: Freight-margin analytics for Gulfline

Hi Ingrid,

Great to connect on Friday. As promised, the tailored deck is at <https://northgate-analytics.com/decks/gulfline?v=3> · slide 9 has the Gulf Coast benchmark your CFO asked about. Happy to walk through it live; my colleague Tom Whelan covers your region and will join.

Would 06/17/2025 at 10:00 CT work for a 45-minute call? If your procurement team needs vendor forms first, loop them in and we'll turn ours around same-day.

Best regards,

Marcus Aurelio Bell
